

SA600

Platform Steps

Safety, flexibility and sturdiness taken to greater heights

The platform steps for working at a height of up to 3.20 m – developed according to the latest EU Directives for working at heights

- Large standing surface with guard rail ensures maximum work safety. Comfortable standing or longer periods of work requiring the use of two free hands
- Height-adjustable in platform heights of 0.40 m / 0.80 m / 1.00 m and 1.20 m: platform steps for different working heights
- Comfortable height locking by means of foot lever
- The platform can be moved quickly and easily as it has two lockable castors
- Pull-out locking castors as stabilizers provide for maximum stability
- Foldable for easy transportation – low transportation dimensions: 1.74 m x 0.74 m x 0.56 m
- Large steps for safe access – steps are horizontal at every lockable height

Can be folded down quickly for transport, dimensions when folded: 1.74 m x 0.74 m x 0.56 m

Treads horizontal at each lockable level

Extendable, lockable castors to stabilizers
